

How To Create And Merge A Pull Request On GitHub

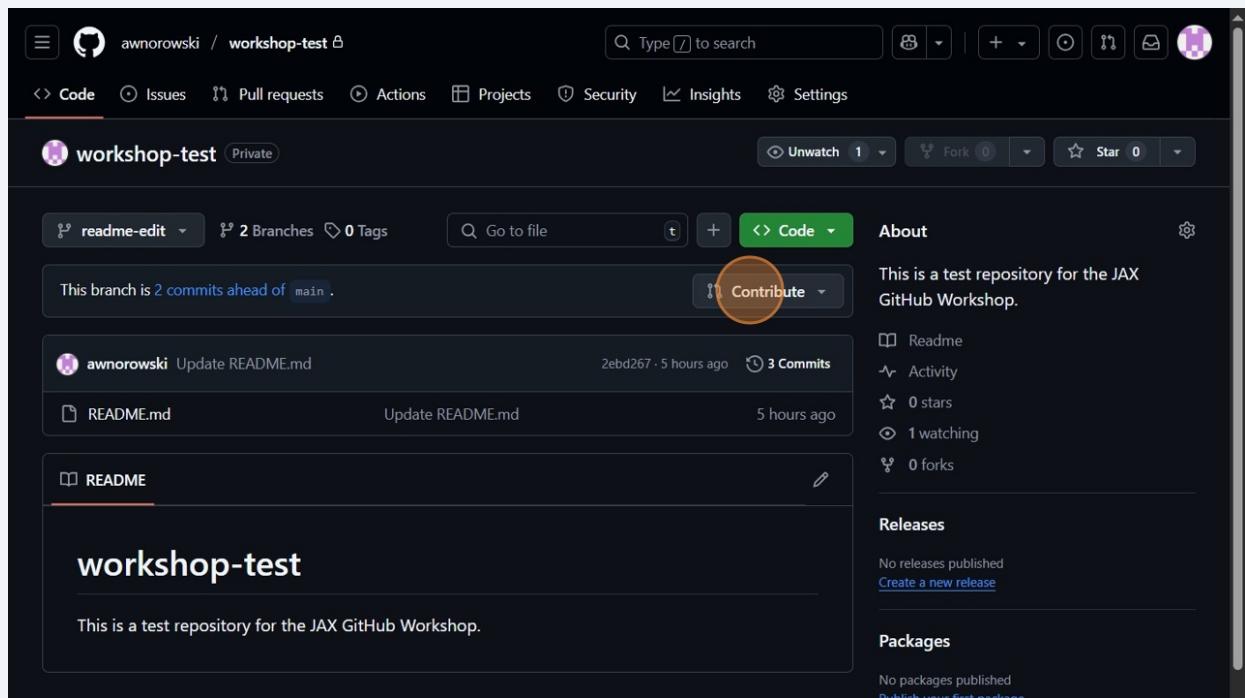

Scribe 

Creating a Pull Request

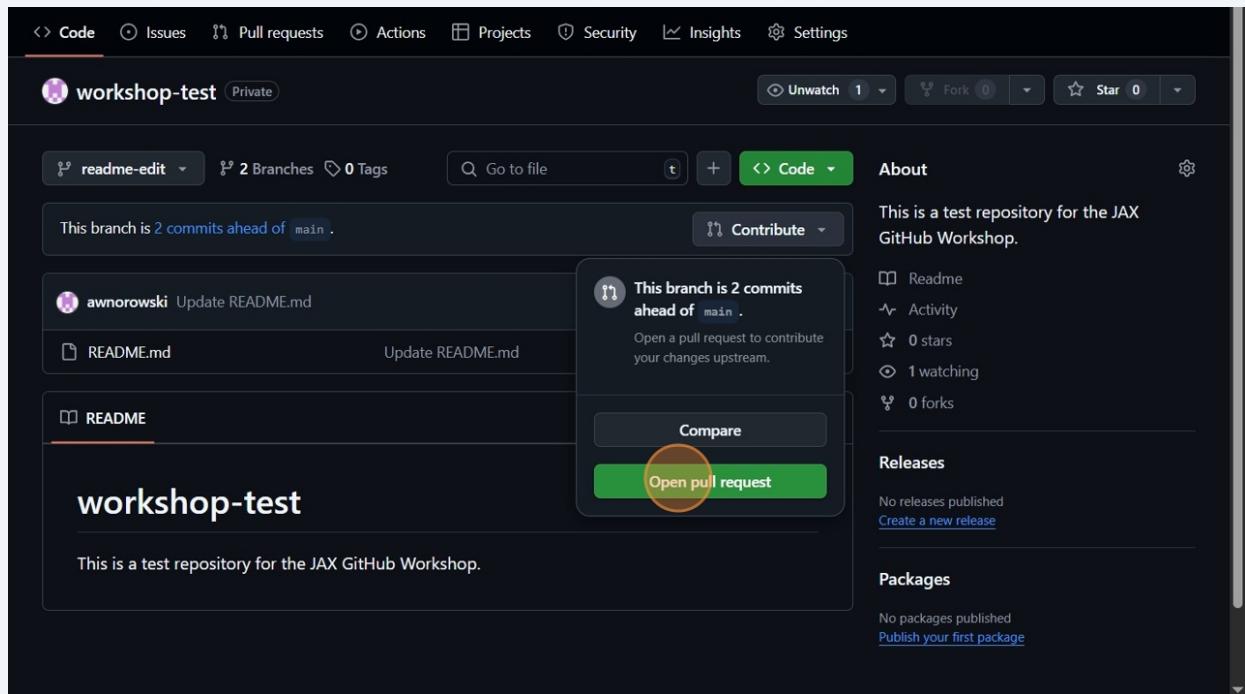

- 1 Navigate to your new branch containing your commits.

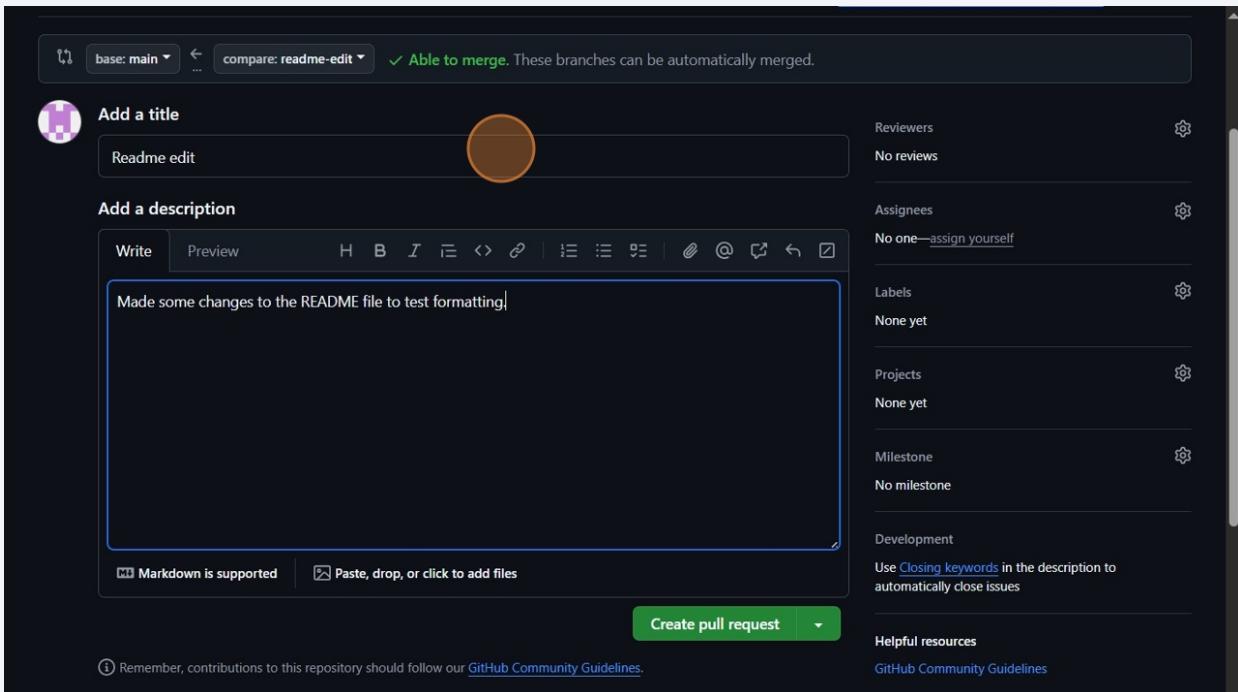

2 Click "Contribute"

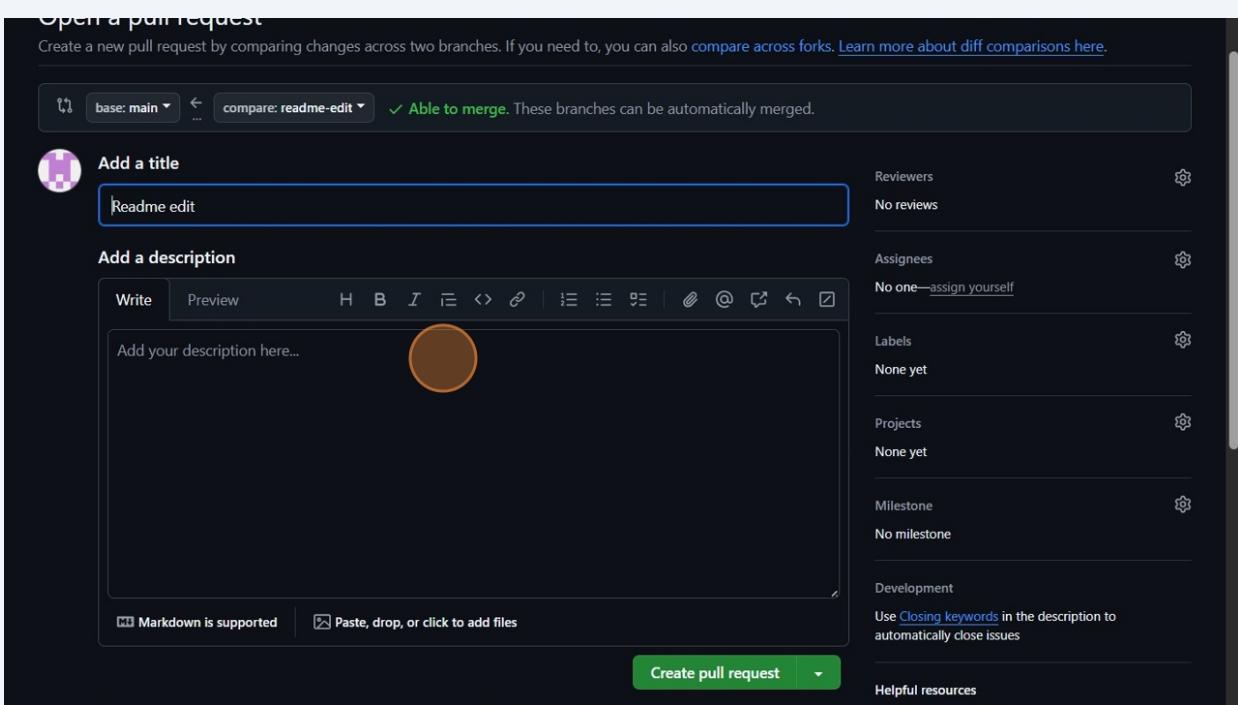

3 Click "Open pull request"

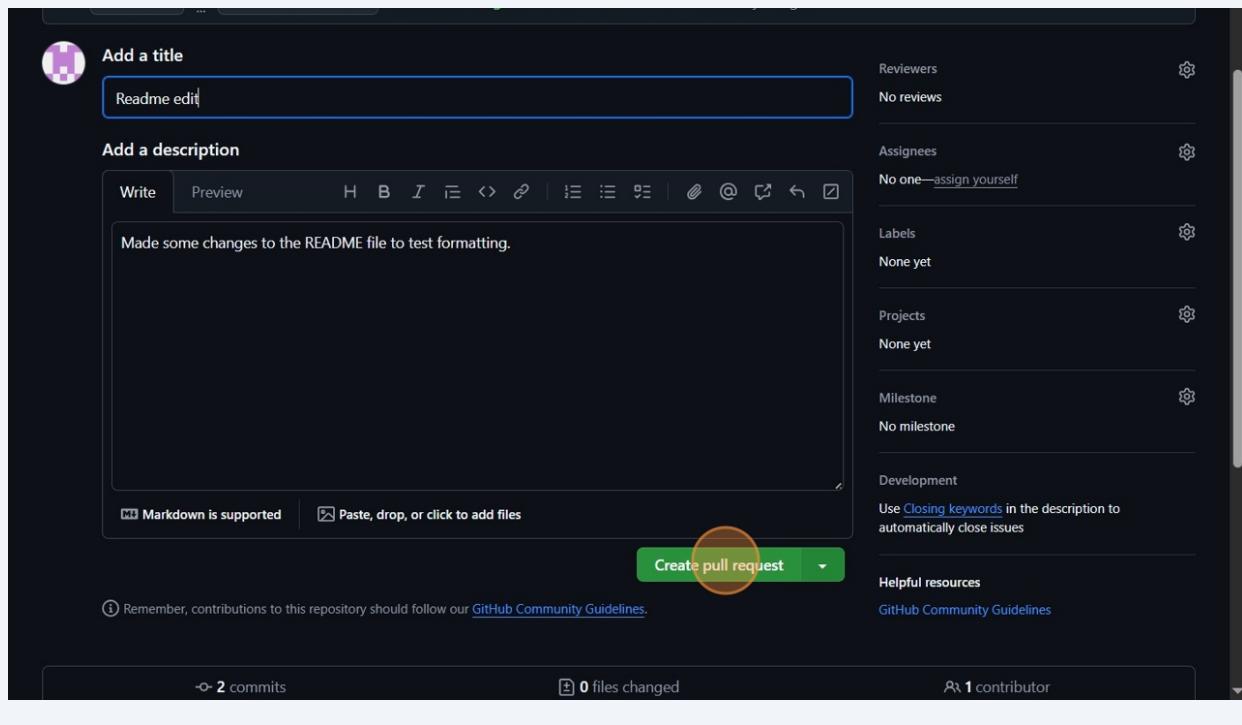

- 4 Click the "Add a Title" field, and edit the title as needed.

- 5 Click the "Add a description" field, and add a detailed description.

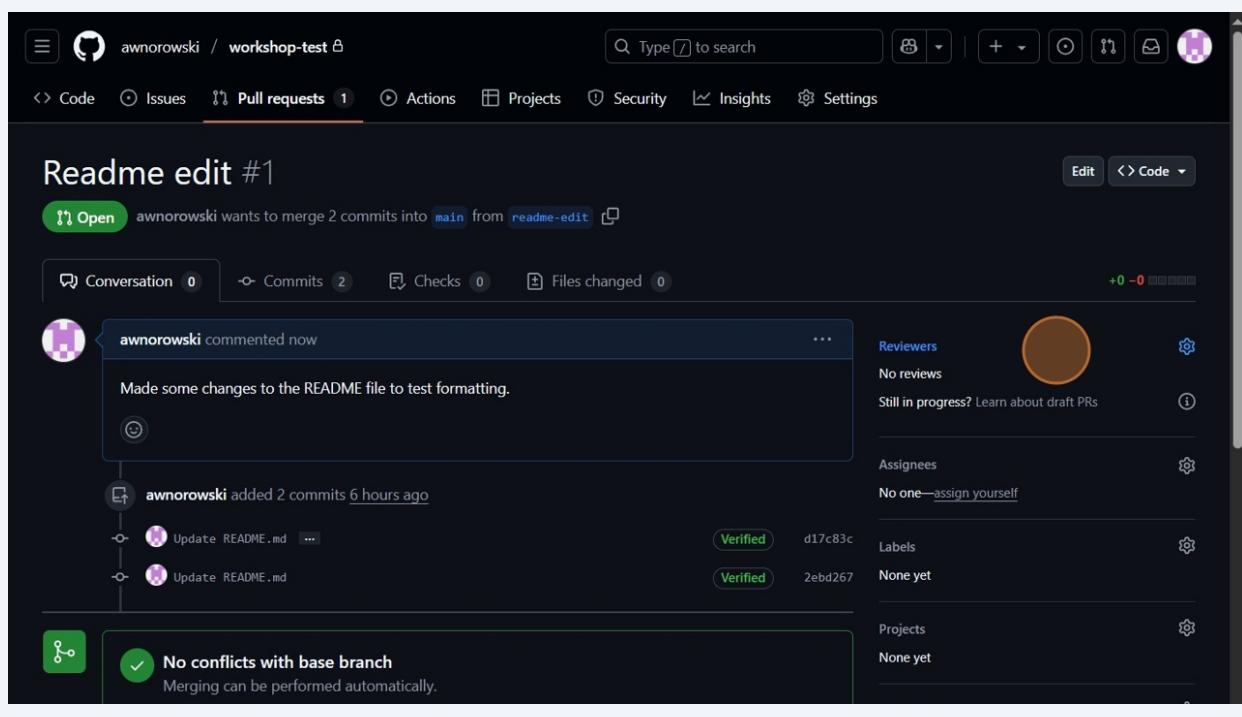

- 6 Click "Create pull request"

Edit the Pull Request

- 7 To add other GitHub users as reviewers, click "Reviewers"

- 8 Then, enter the reviewer usernames into the "Type or choose a user" field.

The screenshot shows a GitHub Pull Request page for a repository named 'Readme edit #1'. The pull request has been merged into the 'main' branch from the 'readme-edit' branch. The 'Reviewers' section on the right side of the page contains a text input field labeled 'Type or choose a user', which is highlighted with a red circle. Below the input field, it says 'Nothing to show'.

- 9 To add an assignee, click "Assignees"

The screenshot shows the same GitHub Pull Request page as the previous one, but the 'Assignees' section on the right is now highlighted with a red circle. It displays the message 'No one—assign yourself'.

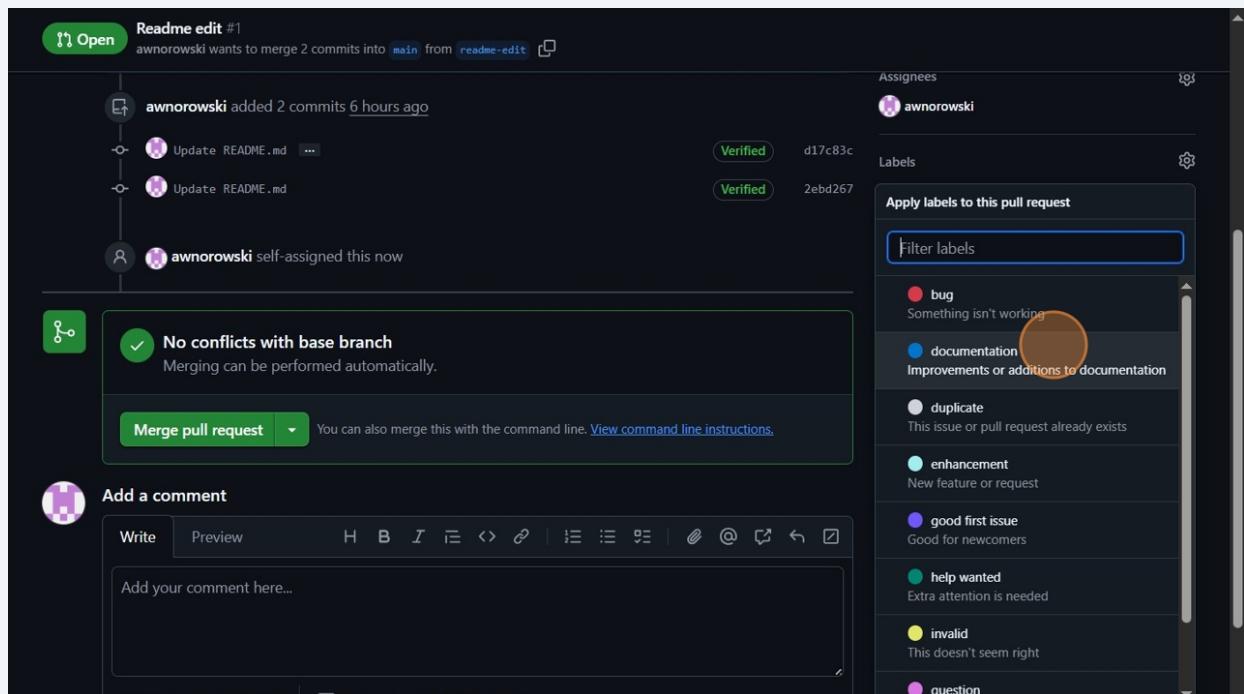

10 Then type or select a user as assignee.

The screenshot shows a GitHub pull request page for "Readme edit #1". The top navigation bar includes "Code", "Issues", "Pull requests 1", "Actions", "Projects", "Security", "Insights", and "Settings". The main content area displays a comment from "awnorowski" stating, "Made some changes to the README file to test formatting." Below this, another comment shows "awnorowski" adding two commits. A sidebar on the right is titled "Assignees" and contains a search bar with "Type or choose a user" and a suggestion for "awnorowski". A brown circle highlights the "awnorowski" entry in the suggestions list.

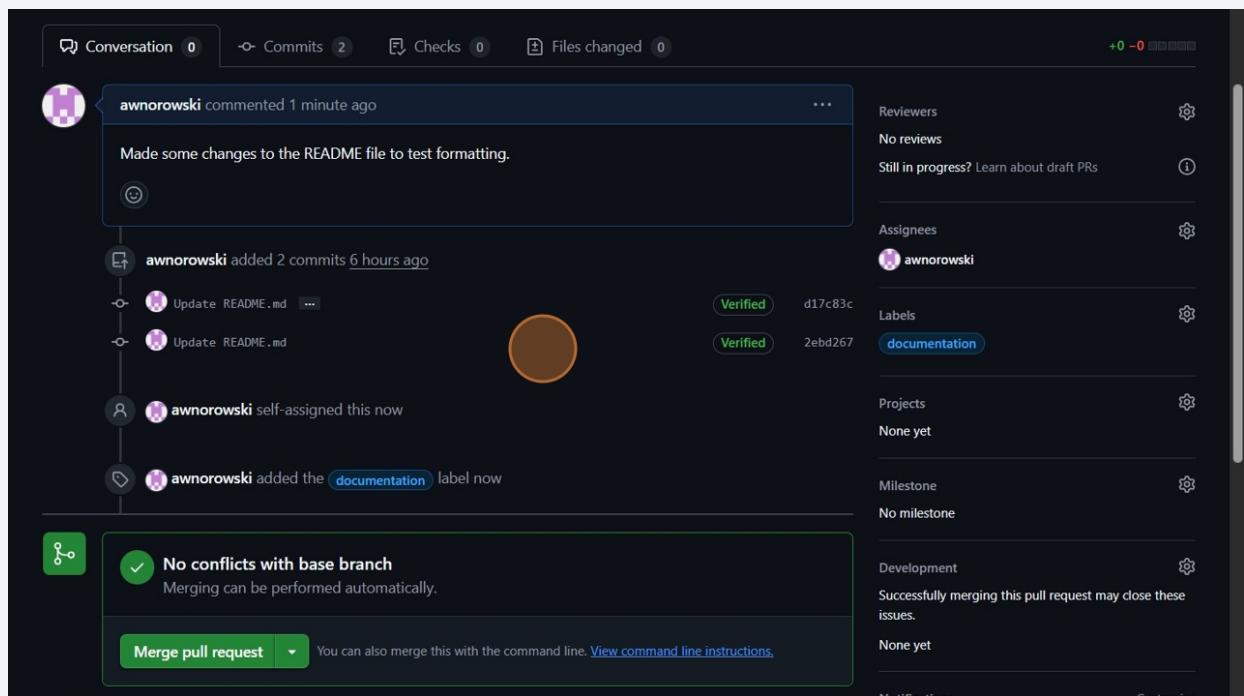

11 To add a label, click "Labels"

The screenshot shows the same GitHub pull request page as the previous one, but now with a brown circle highlighting the "Labels" section in the sidebar. The sidebar also shows "Assignees" (with "awnorowski" listed) and "Projects" (with "None yet").

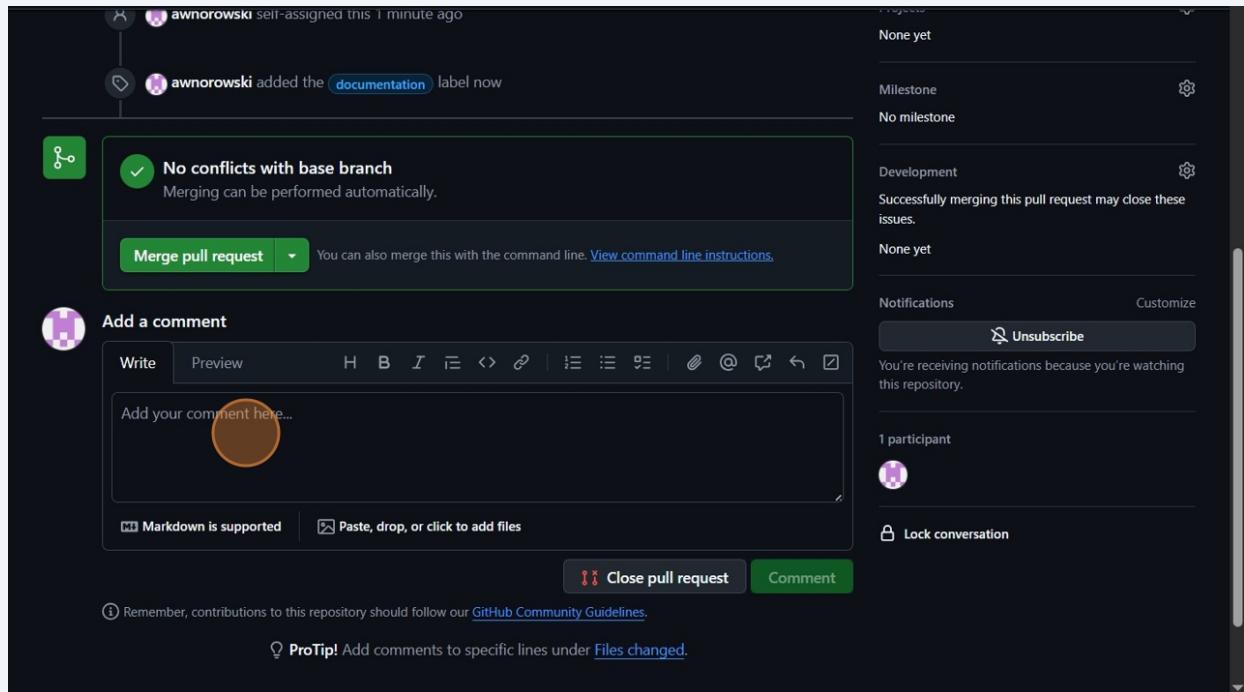

12 Select a relevant label for your pull request.

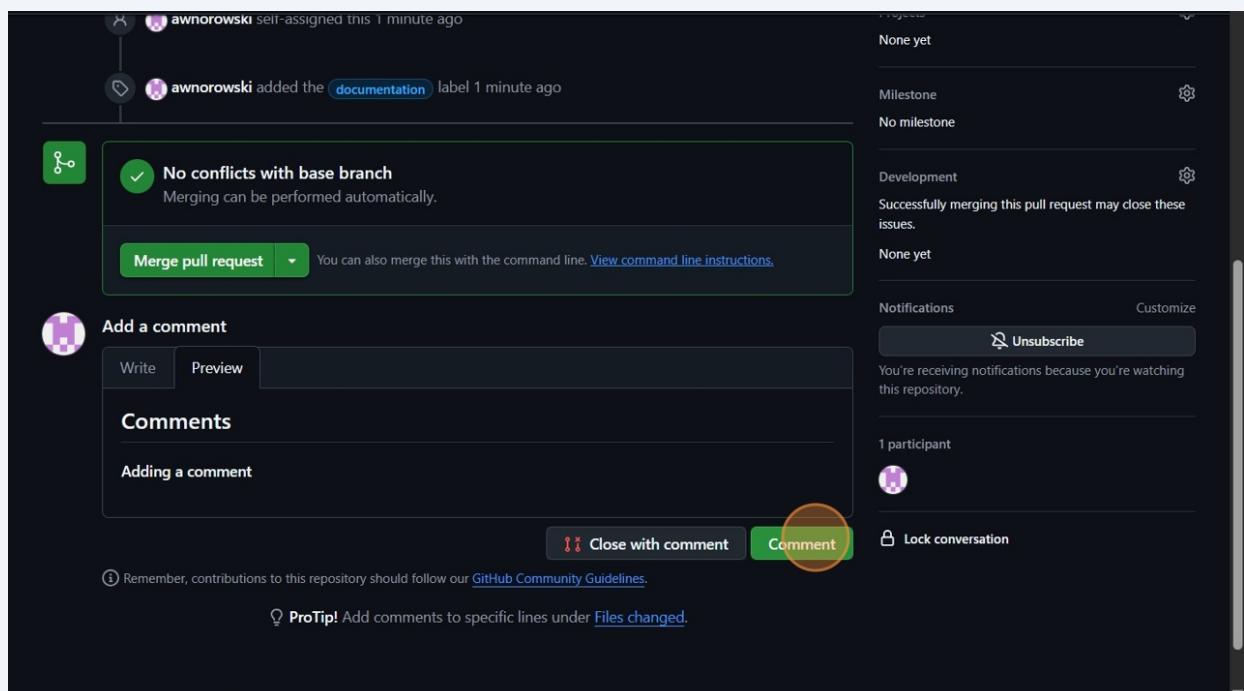

13 You should see any updates reflected in the "Conversation" pane on the left of the window.

14 To add comments, click the "Comment" field, and type your comment. You can use Markdown to format your comment.

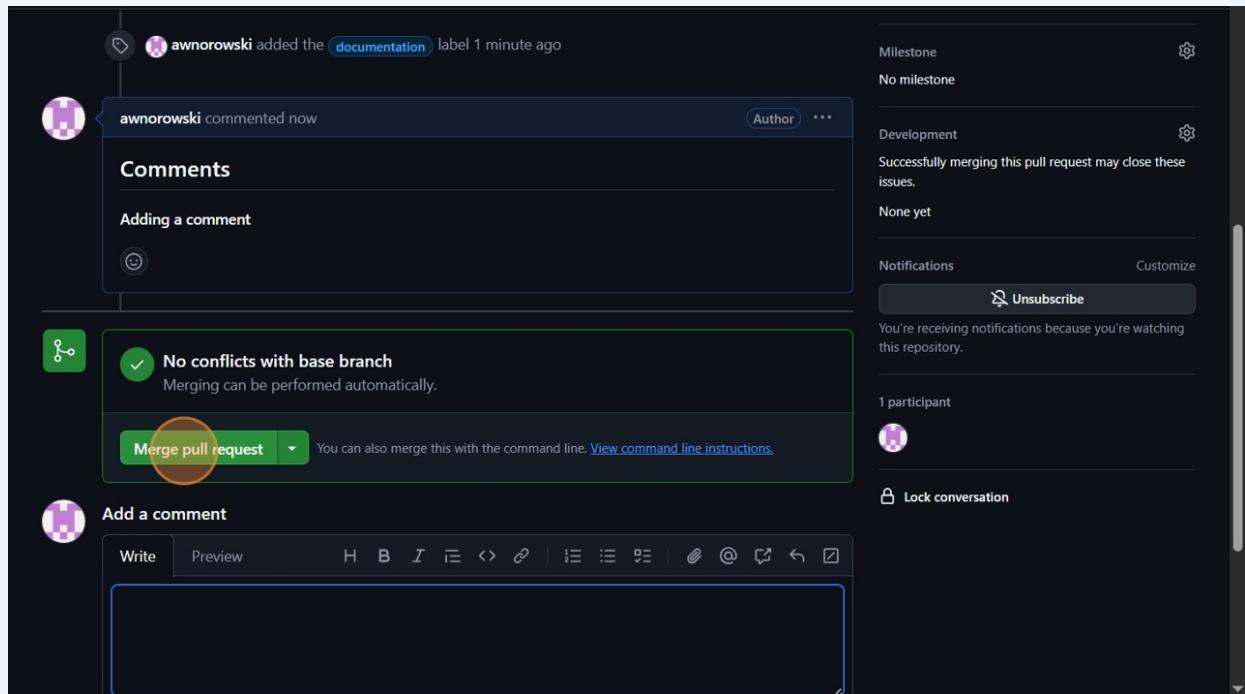

15 Click "Comment" to publish your comment.

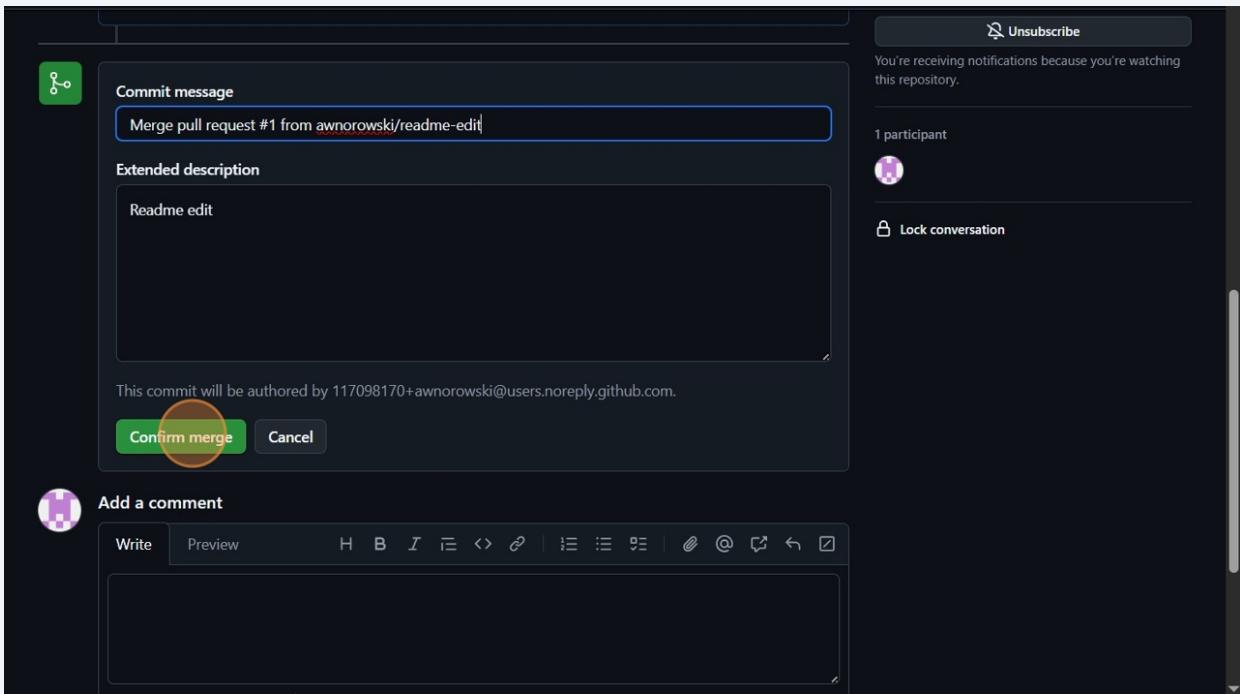

Merge a Pull Request

- When you are ready to merge your changes, click "Merge pull request"

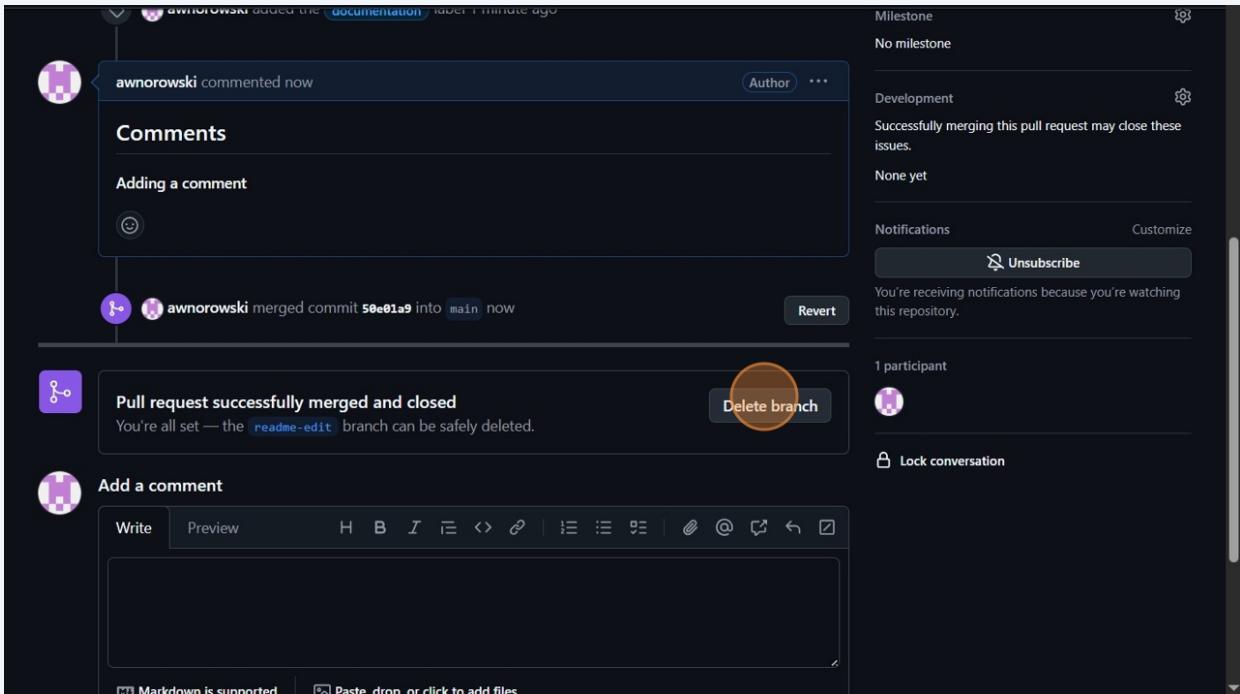

17

Update the commit message and description as needed, then click "Confirm merge"

18

If you no longer need this branch, you can click "Delete branch"

19

Details about the merge and branch deletion will be reflected in the "Conversation" pane.
